UNIQUE MEDICAL DEVICES

DEEPRA[®] - FLEX (UR-332)

Flexible Uretero-renaloscope
Reliable fellow RIRS

Specification :

- Outer Diameter : 9.1Fr
- Instrument Channel : 3.6Fr
- Working Length : 670mm
- Style : Flexible
- Angulation Range : UP275°/DOWN275°

Insertion part rotation left/right 120°

- Smoother Insertion;
- Improve Therapeutic Capability;
- Easier access endo-therapeutic devices;
- Enhance team working efficiency.

- The 120° rotation function allows the operator to change the shaft's angle by rotating a ring on the handle. This potentially allows for longer laser activation, making treatment of large stone burdens feasible.
- Increased shaft stiffness for improved steering of the ureteroscope allows the lower pole calyx to be reached easily.

275° up & down big angel bending

Facilitate access to stones the upper, and lower calyces even when using laser fiber
